CARRIAGE AND HARNESS REPOSITORY.

Fort Street, Above Club Stables.

Island Orders Promptly Filled.

TRIP TO MOLOKAI

Visit by Dr. Woodson of United States Army

Was Medical Inspector Under General Wood—Yellow Fever Expert.

Surgeon-Captain R. F. Woodson, of the United States Army en route to Manila, returned Sunday from his flying trip to the Laper Settlement whither he had gone via the Lehua on Thursday last. The Surgeon is very much interested in leprosy treatment and in view of stopping over in Honolulu had obtained leave of absence before leaving San Francisco with the privilege of continuing to Manila on another transport. Captain Woodson had a hard trip across the Pail, and his stay in the Settlement was limited to a few hours.

"Molokai with its natural features is an ideal place for a leper settlement," said Dr. Woodson. "All the inhabitants there seem to be perfectly contented and happy as far as I could judge. I spent most of my time in the Boys' and Girls' schools where I had splendid opportunities offered for observation. What impressed me greatly was the patience and self-sacrifice of the Sisters of Charity, and Brother Dutton. Their earnestness and zeal in their gruesome work is above ordinary words of commendation.

"As far as I was able to observe, there is no attempt at the present time being made to cure the disease, but there is seemingly a disposition to look upon it as incurable. At the same time I can see that the Hawaiian Government is using every means within its power to look out for the personal comfort of the afflicted ones."

He cited Mexico as a country which paid little attention to segregating lepers from the general community, citing the case of a distinguished Mexican Senator, who is looked upon as an incurable, yet he is permitted to perform his part in the official life unmolested. In Louisiana, the lepers are kept within an old convent, but they are not so well guarded that they could not roam at large if they desired.

The medical journals have many valuable contributions from Dr. Woodson's pen, one of which, "Epidemiologic Deductions of 1200 Cases of Small Pox," covering his work in the South, and also in Cuba, where he was General Wood's Medical Inspector. The epidemic which threatened Santiago province, after the campaign was finished, was wiped out in two months.

He speaks highly of Dr. Archinaud of New Orleans whose work in the yellow fever epidemic in 1897 was assisted by Dr. Woodson. It was at this time that the French doctor proved Sanarelli's theories, and also proved the serum diagnosis of yellow fever; this method was to take the blood of the patient and apply it with a culture of the germ of the disease; in all cases of yellow fever it causes the germ to die and glutinate; if it is not yellow fever, it has no effect.

Dr. Woodson will leave for Manila on the Transport Senator.

THE COMING MAUI PAPER.

It Will Probably Appear About the 1st of January.

George B. Robertson of Wailuku, Maui, is in town on a short visit. Mr. Robertson runs a law office and hotel at Wailuku—a hotel where the cooking is in the best Missouri style and a law office where the legal advice is a marked improvement on the Missouri article. Despite the rush which his dual duties impose upon him, Mr. Robertson is about to start a paper which he refers to jocularly as the Maui Howler. It will have weekly, irrespective of the weather and of the fact that the noise may wake up the town. The paper promises to be more profitable than sugar stock when Maui gets to be a county of the Territory of Hawaii and the Howler obtains a cinch on the official printing. In the interim Mr. Robertson will be satisfied if he makes it pay its way, an ambition which, seeing that both the hotel and law office have pledged themselves to advertise liberally, is sure to be realized. A printing plant is now on its way to Wailuku and the Howler will then become vocal before January 1st.

Around Hilo

Mr. J. A. Scott of Hilo who arrived by last Kinau was seen today. Mr. Scott states that the plantations along the Hilo coast are busy getting ready for the grinding season which begins in January next. New vacuum pans are now being put in at Pepeekeo plantation and by the Waiakae Mill Co. of Hilo. Considerable new building is going on in and around Hilo and times seem to be good. Mr. Scott will remain in town over one steamer.

HAS RETURNED.

L. B. Kerr has returned from Europe with an immense shipment of English Dry Goods. Watch for the grand opening. Bargains never before offered in Honolulu.

The Best Food for Infants

Nature planned that infants should have only milk for at least the first year of life. But thin milk, skimmed milk, will not nourish. It's the milk that is rich in cream, or fat, that does the work. This is because fat is positively necessary for the growing body.

Scott's Emulsion

contains the best fat, in the form of Cod-Liver Oil, for all delicate children.

They thrive greatly under its use. Soon they weigh more, eat more, play better and look better. It's just the right addition to their regular food. The hypophosphites of lime and soda in it are necessary to the growth and formation of bone and teeth.

At all druggists; 50c. and \$1.00. SCOTT & BOWNE, Chemists, New York.
